

# SKEI Smt.Kamalabai Educational Institution

AFFILIATED TO CBSE NEW DELHI CODE.830360

## VISION

Smt. Kamalabai Educational Institution is a child-centered school, driven by a rigorous curriculum that nurtures both critical and creative thinking.

By providing a personalized, safe learning environment, our endeavor is to help children demonstrate higher order skills, service to the school and society, compassion and respect towards all individuals.

Our students find an intelligent balance between success in academic and extracurricular activities. Above all, as its founders intended, the school aims to be “a sacred place from which girls and boys shall take the highest aspirations to lead better, grander and fulfilling lives”.

**SOWING SEEDS,  
REAPING DREAMS...**

## Pre Primary Education

Pre Primary education at SKEI is the laying foundation of the child's first learning experience. We believe in filling this experience with innovative and fun learning. Subsequently, our aim is to also make the lessons they learn valuable and useful through engaging activities and co-curricular. To balance the learning process of the child, several activities are organised such as:

**Indoor and outdoor activities**

**Gross and fine motor activities**

**Quiet and active activities**

**Individual, group and class activities**

**Festival celebrations**

**Colour activities**

**Field trips**

**Co-curricular activities**

## Primary Education

Primary Education at SKEI is blend of pure and positive environment, innovative and experiential learning through fun activities and a promising future in the school and the the outside world.

Everything that the children need to learn at this crucial age is catered to foster their brimming curiosity, learn through cross-curricular, thematic classes and innovative teaching methodologies. Classrooms are

“Thinkrooms”, which allow free expression.

Co-curricular activities and sports is a major area of enthusiasm for the learners. These activities are planned keeping in mind the concept of multiple intelligence that helps in strengthening the character of a child through experiential and fun-learning.

## Secondary Education

The Secondary education at SKEI represents the school's commitment to optimise teaching and learning and facilitate children's holistic development and well-being. Through a curriculum that is stimulating, child-centric and creative, we enable our students to explore multiple dimensions of excellence, encompassing intellectual, social, psychological and physical development.

Presentations, role plays, skits, debates and discussions are some of the ways children are motivated to present their creative works and ideas. Field trips, excursions and several innovative activities such as theatre, robotics, karate, aero-modeling, astronomy etc. encourage children to develop an understanding for a plethora of creative and innovative fields for their future.

They are also encouraged to participate in community service and civic awareness programmes ensuring that they grow up in coordination with the school's vision of grooming children up into caring and empathetic individuals.

## Co-curricular activities

The school has identified the learning style of every individual and to cater to their respective needs and learning capability, we at SKEI have brought in a plethora of innovative and distinctive learning methodologies. Through hobbies, we endeavour to provide them with an alternative method of learning which every children need throughout their education to be able to learn effectively and implement their knowledge in real life.

On the same line, the school has introduced four new hobby courses starting from grade 5, they are- Organic Farming, Aero-modeling, Astronomy and Robotics as a part of their year long co-curricular activity; wherein students are introduced to various aspects- technological and developmental in this field. These courses are a part of the regular timetable and are scheduled over a period of one year, without disturbing the regular academic studies. They are the favourite and effective hobbies helping to satisfy the intellectual and scientific urges of children.

Involvement of the different faculties of vision, touch and audition coupled with logic, reasoning, creativity and patience make these hobbies an enriching experience. Children learn to absorb and follow both audio and visual instructions and develop a systematic logical concept, which expands their imagination and creativity to reach new intellectual heights. Virtues of patience, endurance and team building are naturally imbibed while working on these activities.

We look forward for the students to actively participate in these courses and get maximum benefit from it.

## LEARNER'S PROFILE

Coming from a lineage of cultured and successful individuals, the students at SKEI are problem solvers, inquirers, compassionate, creative and dignified.

### PROBLEM SOLVERS

The children are well prepared to face challenges in the real world, reflect on their self and solve problems and make wise decisions independently to achieve purposeful goals at every stage of life.

### INQUIRERS
